Founder Experience, Enterprise Scale and Software Leadership

Point One 2024-Current

Engineering Team Lead · Architected and shipped a real-time GraphQL Edge API and full-stack features to Point One's web app, enterprise Billing (Zuora) and a real-time License Management System.

Nike (\$NKE) 2022-2024

Team Lead, Nike Virtual Studios · Architected cloud-native infrastructure for high-traffic web3 launches (.SWOOSH). Mentored engineers on distributed patterns and modern frontend delivery, bridging gaps between enterprise legacy and blockchain innovation.

UX (\$UX) 2021-2022

Head of Engineering · Architected blockchain solutions with my team leads, drove web3/COSMOS projects to Mainnet, including a faucet, real-time, on-chain analytics suite and Peggo gravity bridge.

WeedMaps (\$MAPS) 2007-2013

Co-Founder and CTO · Bootstrapped the platform from zero to multi-million dollar recurring revenue and millions of monthly active users. Built the initial engineering culture and core technology stack, laying the foundation for a billion-dollar public exit.

Dimension 1998-2021

Founder · Led a potent, tight-knit team, ensuring our customers never failed; launched iOS & Android apps, Shopify apps + Storefronts and Podcasts.
